

## DAISY DESIGN INSTRUCTIONS

1) Use a compass to draw a circle.	
2) Place a random point on the circumference of the circle.	
3) Using the same radius as the circle, place the point of your compass on the point created.	
4) Make an arc from one side of the circumference to the other through the center of the circle.	
5) Place the point of your compass on the intersection of your arc and the circumference.	
6) Create another arc.	

7) Continue until all six petals have been created.	
<p><i>If you would like to, you can create another one by:</i></p> <p>8) Place another random point on your circumference.</p>	
<p>9) Create another six petals to make a total of twelve. Petals should go under the original six petals by creating only the part of the arc required.</p> <p>Note: the shaded petals are in the background rather than the foreground.</p>	

## Mandala Project Directions

<p>1) Create two concentric circles by using the same center point and creating two circles with different radii.</p>	
<p>2) Set your compass radius to match the radius of the larger circle.</p>	
<p>3) Construct the tips of the petals of a daisy design by following the steps to create a six petal daisy except allow the compass to mark only the arc between the two concentric circles.</p> <p>Note: Dotted arcs indicate the portions that are not drawn.</p>	
<p>4) <i>Create the Geometric Design you have selected within the center circle</i></p>	

<p>5) Optional: Add more circles wherever you want. The dotted circles show possible choices.</p>	
<p>6) Add symbols that represent your life. Examples might include your favorite colors, sport symbols, etc.</p>
